

## Pace American JF610SA Rehab Trailer

- Single axle
- 141# hitch weight
- 940# curb weight
- 2050# capacity
- 2990# GVWR
- Hitch takes 2" ball
  - Class III hitch receiver (2" × 2" hitch receiver)
  - Class II hitch receiver (1¼" × 1¼" hitch receiver)
- 4-flat connector for lights

### **Important Notes**

- ✓ Check under the coupling to ensure the ball clamp is below the ball and not riding on top of it.
- ✓ Latch the coupler to the hitch ball. Make sure it is locked in place by lifting the trailer tongue. If the coupler comes loose from the ball, unlatch it and go back to previous step.
